***Reaching the Fullest Potential for
Boys and Girls in Math & Literacy***
By Lise Eliot, Ph.D.

Associate Professor of Neuroscience,
The Chicago Medical School of Rosalind Franklin
University of Medicine & Science.

Author,

*Pink Brain, BlueBrain: How Small Differences Grow into
Troublesome Gaps – and What We Can Do About It*

Join us for this lively presentation about how sex differences emerge and what we can do to help all children reach their fullest potential. Discover what social factors, such as how we speak to boys and girls, influence the gender divide. See how we can encourage girls in math and boys in reading and writing.

Underwritten through a grant by

ATTENDANCE AT THIS PRESENTATION EARNS 1.5 CPDU/CEU CREDITS
